[]

4. [] passed on personal observations:

(a) This legislation is following Senator Dodd's thoughts
on the matter completely.

(b) Prohibition on interstate sale of pistols and revolvers, together with the requirement that the licensee assume certain responsibility in making findings in connection with the buyer (18 years old, not a felon, is who he says he is, etc.) will probably lead to decentralization and increase the number of dealers in certain states.

(c) In many ways this is "Buy American" legislation and would favor the gunmakers in Connecticut.
